

# TR NDS ELITE

in RIGID COLLECTION

White Oak Sand

**WATERPROOF • LIFEPROOF • FOOLPROOF**

**Trends in Rigid** provides unprecedented strength, dimensional stability, and damage resistance. Its unique homogeneous construction combines the highest polymer content with today's most popular visuals to create outstanding waterproof

flooring solutions for both commercial and residential installations. Melded under heat and intense pressure into solid planks and tiles, Trends in Rigid has a much greater density than traditional composites, resulting in superior surface peel resistance

and greater dimensional stability. Trends in Rigid's **Elite** collections build on the already outstanding performance of solid rigid core, offering products that perform at an even higher level.

**REPUBLIC**  
premium solid rigid core
